## Engine-Driven Welders

|                         |   |
|-------------------------|---|
| <b>GX200 2+4</b>        | 200 amp Honda gas DC CC                         |
| <b>Ranger 225</b>       | 225 amp Kohler gas DC CC CV                     |
| <b>Bobcat 250 LPG</b>   | 250 amp Kohler LPG AC DC CC CV                  |
| <b>GX300</b>            | 300 amp Kohler gas DC CC CV                     |
| <b>D302K 3+12</b>       | 300 amp Kubota diesel DC CC CV                  |
| <b>D300K 3+3</b>        | 300 amp Kubota diesel DC CC (optional CV)       |
| <b>D300K 3+3 AirPak</b> | 300 amp Kubota diesel DC CC with Plasma Cutter  |
| <b>DX450</b>            | 400 amp Kubota diesel DC CC CV                  |
| <b>D500K 5+20</b>       | 500 amp Kubota diesel DC CC CV (optional AC)    |
| <b>D503K 5+3HO</b>      | 520 amp Kubota diesel DC CC (optional CV)       |
| <b>Mariner 5+3</b>      | 500 amp Kubota diesel DC CC Offshore Protection |

All our welders are built to Extreme-Duty specs to provide outstanding performance and reliability in construction environments

## Stick Welders and Multioperator Paks

|                    |  |
|--------------------|--|
| <b>ES275i</b>      | 275 amp DC CC welder                             |
| <b>ES275i 4Pak</b> | Multioperator with four 275 amp welding modules  |
| <b>ES275i 6Pak</b> | Multioperator with six 275 amp welding modules   |
| <b>ES275i 8Pak</b> | Multioperator with eight 275 amp welding modules |
| <b>E300</b>        | 300 amp DC CC welder                             |
| <b>E300 4Pak</b>   | Multioperator with four 300 amp welding modules  |
| <b>E300 6Pak</b>   | Multioperator with six 300 amp welding modules   |
| <b>E500</b>        | 500 amp DC CC welder                             |
| <b>E500 4Pak</b>   | Multioperator with four 500 amp welding modules  |
| <b>E500 6Pak</b>   | Multioperator with six 500 amp welding modules   |

ES275i and E500 welders feature full remote control functionality

## Multiprocess Welders and Multioperator Paks

|                            |  |
|----------------------------|--|
| <b>E300 3+2</b>            | 300 amp DC CC CV welder/power source   |
| <b>E300 3+2 4Pak, 6Pak</b> | Multioperator with four or six 300 amp welder/power sources                    |
| <b>EX300</b>               | 300 amp DC CC CV welder/power source   |
| <b>EX300 4Pak, 6Pak</b>    | Multioperator with four or six 300 amp welder/power sources                    |
| <b>EX360</b>               | 350 amp DC CC CV welder/power source   |
| <b>EX360 4Pak, 8Pak</b>    | Multioperator with four or eight 350 amp welder/power sources                  |
| <b>DC400</b>               | 400 amp DC CC CV welder/power source   |
| <b>DC400 4Pak, 6Pak</b>    | Multioperator with four or six 400 amp welder/power sources                    |
| <b>DC600</b>               | 600 amp DC CC CV welder/power source   |
| <b>DC600 4Pak, 6Pak</b>    | Multioperator with four or six 600 amp welder/power sources                    |
| <b>DC1000</b>              | 1000 amp DC CC CV welder/power source  |
| <b>AC1200</b>              | 1200 amp AC CC power source for NA-4 automatic wirefeeders                     |
| <b>DC1500</b>              | 1500 amp DC CC CV power source for LT-7, NA-3S, and NA-5 automatic wirefeeders |

All our Multioperator Paks include CSA certified 480/600V power distribution panels for enhanced jobsite safety

## Advanced Process Power Sources

|                              |  |
|------------------------------|--|
| <b>EX350i</b>                | DC CC CV Pulsed MIG, Pulse-on-Pulse MIG                            |
| <b>EX360 MAP</b>             | DC CC CV Pulsed MIG  |
| <b>Invertec STT II</b>       | STT DC Surface Tension Transfer with Waveform Control Technology   |
| <b>Power Wave 355M</b>       | DC CC CV with Waveform Control Technology                          |
| <b>Power Wave AC/DC 1000</b> | AC DC CC CV Submerged-Arc welding with Waveform Control Technology |

Advanced process welders provide higher quality welds at higher speeds than conventional power sources.

## Multioperator DC Converters

### MX350 300 amp CC CV Multioperator DC Welding Module

Several MX350 welding modules can be powered by either an electric power-source or an engine-driven power source for DC positive Stick, MIG, and SubArc welding processes. Operates with low DC arc-voltage for enhanced jobsite safety. High performance welding control including Hot Start and Arc Force - right at the arc. Full remote control capabilities.

# Welders Positioners Generators Specialty Equipment

## MIG Welding Packages, Wirefeeder Welders

**Millermatic 252** 250 amp DC CV MIG, Flux-Cored Processes  
**PowerMIG 350MP** 300 amp DC CV MIG, Flux-Cored, Pulsed MIG, Pulse-on-Pulse MIG Processes

Both the Millermatic 252 and the PowerMIG 350MP are compatible for use with MIG guns, spool guns, and push/pull guns.

## Semiautomatic Wirefeeders, Push-Pull Welding Guns

**LN25** 300 amp voltage sensing wirefeeder  
**LN25 PRO-Extreme** 325 amp voltage sensing wirefeeder  
**LN-7, LN-8, LN-9** Constant speed wirefeeders  
**XR Control** MIG aluminum and soft alloy wirefeeder  
**XR-A, XR-W Edge** Push-pull guns for XR control wirefeeder  
**Spoolmatic 30A** MIG aluminum and soft alloy welding with 1 lb spools  
**WC-24, WC115A** Weld controls for use with Spoolmatic 30A spool gun

## Automatic Wirefeeders and Welding Heads

**LT-7** Automatic wirefeeder tractor for Submerged-Arc welding  
**NA-3S** Automatic CC or CV DC MIG, Flux-Cored, Submerged-Arc welding  
**NA-4** Automatic CC AC Submerged-Arc welding  
**NA-5** Automatic CV DC MIG, Flux-Cored, Submerged-Arc welding

## TIG Welders

**Maxstar 200 SD** 175 amp DC CC TIG, Stick inverter  
**Dynasty 350** 300 amp AC DC CC TIG, Pulsed TIG, Stick inverter  
**Syncrowave 250** 250 amp AC DC CC TIG, optional Pulsed TIG  
**Syncrowave 350 LX** 300 amp AC DC CC TIG, Pulsed TIG  
**D550K TIG** AC DC CC TIG, Stick diesel engine-driven welder

## Stud Welders

**PROWELD ARC-1850** 12 gauge to 7/8" stud welding capacity  
**PROWELD ARC-3000** 1/4" to 1 1/4" stud welding capacity  
**PROWELD CD-312** #2 to 5/16" stud welding capacity

Stud welding capability from 12 gauge up to 1 1/4" material.

## Welding Positioners, Manipulators, Turning Rolls

**Positioners** Set capacities up to 85,000 lb  
**Turning Roll Sets** Rotate vessels up to 400 tons and 26' in diameter  
**Welding Head Manipulators** From 4'x4' up to 18'x18'

**1-866-733-3272**

# Red-D-Arc Welderrentals®

When you're ready to weld.

Welders  
Positioners  
Generators  
Specialty Equipment

## Generators, Power Panels

Diesel electric-power generators up to 350 kW (440 kVA). Various electric-power distribution panels are available.

## Mobile Weld Certification Trailers

On-site weld training and welder testing with 8 welding stations, electrode oven, and coupon bender

## Pipe Bevelers

Saddle-Type and Band-Type models available

## Smoke Extractors

Up to 1,400 cfm capacity

## Electrode Ovens

10 lb, 125 lb, and 350 lb storage capacities

## Gas Cylinder Cages

Safe storage of up to 20 cylinders

## Plasma Cutters

Up to 2" cutting capacity

## AGW/VUP Tank Welders

For in-field automatic welding of storage tanks. Handles plates 6' to 10' high as thick as 2". Weld tanks up to 40' in diameter.

## Induction Heating Equipment

Weld Preheating and Stress Relieving  
Liquid-Cooled and Air-Cooled Systems  
Reduced Set-Up, Fast Time-to-Temperature

With the new ProHeat™ 35 induction heating system, joints can be rapidly and uniformly heated for preheat or stress relief with minimal setup and instruction time. This system induces heat electromagnetically rather than by using a heating element.
