

# Red-D-Arc Welderrentals®

When you're ready to weld.

Solutions for Structural Steel  
Fabricators and Erectors

## Power Distribution Panels

### DP4X100 Power Distribution Panel

400A 480V input, 4-100A 480V

### DP6X60 Power Distribution Panel

400A 480V input, 6-60A receptacles

### DP25 Step-Down Power Distribution Panel

6-20 amp 120V duplex receptacles and 2-30 amp  
120/240V single outlet,

### DP75 Step-Down Power Distribution Panel

30 kVA with 10-20 amp 120V duplex receptacles  
and 2-50 amp 120/240V receptacles

### DP225 Power Distribution Panel

225A 8-60 amp 480/600V 3-phase output

### SB80 Splitter Box

4-20 amp 120V duplex receptacles

## Portable Power Generators

### Diesel Generators

40 kVA to 400 kVA

### Diesel/Natural Gas Generators

65 kVA to 150 kVA

### Natural Gas/LPG Generators

165 kVA and 225 kVA

### Generator Paralleling Systems

# Red-D-Arc Welderrentals®

When you're ready to weld.

**Airgas**  
an Air Liquide company

## Solutions for Structural Steel Fabricators and Erectors

Engine-Driven Portable Welders

Stick (SMAW) Electric Welders

Multiprocess Electric Welders

Advanced Process Welders

Multioperator Welders and Paks

Semiautomatic Wirefeeders

Automatic Wirefeeders

Submerged Arc Tractors

Portable Power Generators

Electric Power Distribution Panels

Induction Heating Systems (IHS)

Portable Plasma Cutters

Stud Welders

# Red-D-Arc Welderrentals

When you're ready to weld.

## Stick and Multiprocess Welders and Multioperator Paks

### DC CC Stick Welder and Paks

ES275 275 amp welder

### DC CC CV Multiprocess Welder and Paks

EX360 350 amp welder, FX450 450 amp welder,

DC600 600 amp welder, FX650 650 amp welder

LN25, LT7 wirefeeders

## Multiprocess/Multioperator Systems

### MX350 300 amp DC+ CC CV Welding Module

Multiprocess/multioperator capabilities for DC+ welding powered by a single engine-drive or electric power source. Cored- and solid-wire welding using LN25 wirefeeders with full, continuous control at each welding module and stick welding with hot start and arc force control. Benefits include less welding cable with reduced cable management requirements; lower fuel/energy costs due to higher operating efficiency; lower voltage/safer operation; less operator downtime chasing loose cable connections and poor grounds; lightweight modules are easy to relocate around the jobsite and safely store. The number of arcs that can be powered from a single power source depends on the amperage draw and operating factor of each module.

## Stud Welders

Various models available capable of welding studs from 14 gauge up to 1 1/4" diameter

Solutions for Structural Steel Fabricators and Erectors

## Induction Heating Systems (IHS) for Weld Preheating and Stress Relieving

Liquid-Cooled and Air-Cooled IHS Systems  
Reduced Set-Up, Fast Time-to-Temperature

## Onsite Portable Welding, Gouging and Plasma Cutting

D300K 3+3 300 Amp Diesel Welder  
DX450 450 Amp Diesel Welder and  
DX450 Sidewinder Dual Operator  
D550K HO 600 Amp Diesel Welder and D550K TIG Welder  
Big Blue Air Pak 600 Amp Diesel Welder  
for Onsite Welding, Air Carbon Arc Gouging, Plasma Cutting
