

# SMOKEY SE210D Fume Extractor

**SMOKEY**

The SMOKEY SE210D is an advanced, effective indoor dust and fume collection system designed specifically to remove particulate matter contaminants at the source. You can expect a noticeable improvement in air quality due to reduced airborne particulates and fumes.

## Features

- Compact space saving design
- Heavy gauge stainless steel construction
- Two speed motor control
- Ultra-quiet performance
- Long-life Infinity brush motors
- Multiple filter configurations available
- Built-in spark arrester
- Quick access motor compartment for servicing

**Product Number**  
SE210D

## SMOKEY SE210D Specifications

| Input Power<br>Volts | Hertz | Amps @<br>120 V | Nominal Airflow<br>(no load) | Airflow<br>(with load) | Number of Motors<br>Motor Type                          | Filter Efficiency | Filter Options  |
|----------------------|-------|-----------------|------------------------------|------------------------|---|-------------------|---|
| 120                  | 50/60 | 12              | 280 CFM                      | 200 CFM                | 2 / high pressure<br>thru-flow discharge<br>vac blowers | 99.5%<br>[F605]   | High efficiency Main<br>filter OR Main filter<br>+ HEPA combination |

## SMOKEY SE210D Dimensions

| Hose<br>Length    | Hose<br>I.D           | Dimensions   | Net<br>Weight      |
|-------------------|-----------------------|--|--------------------|
| 15 ft.<br>[4.5 m] | 1.75 in.<br>[44.5 mm] | H: 14.5 in. [368 mm]<br>W: 9.25 in. [235 mm]<br>D: 26.5 in. [673 mm] | 50 lbs.<br>[23 kg] |
