

Cutting Table Sales and Service

New Equipment Sales

We are authorized distributors for Koike, Retro Systems, Burny, Hypertherm, Thermal Dynamics, and Linatrol Systems as well as many other quality suppliers. We specify, install and support cutting systems in any size and capacity.

Used Equipment Sales

Ask us about the availability of reconditioned cutting tables.

Lease Program

Stretch your equipment dollars with our operating lease program.

Remanufacturing and Retrofit Services

We can cost-effectively upgrade your components or totally remanufacture and modernize your complete cutting table.

Equipment Installation

Our factory-trained technicians can install and configure your cutting tables to get you up-and-running quickly and efficiently.

Repairs and Replacement Parts

We can repair any model and make of cutting table and we sell new and used replacement components and parts.

Service and Maintenance Programs

Maximize equipment productivity and performance while lowering operating costs by taking advantage of our scheduled service and maintenance programs.

Training Services

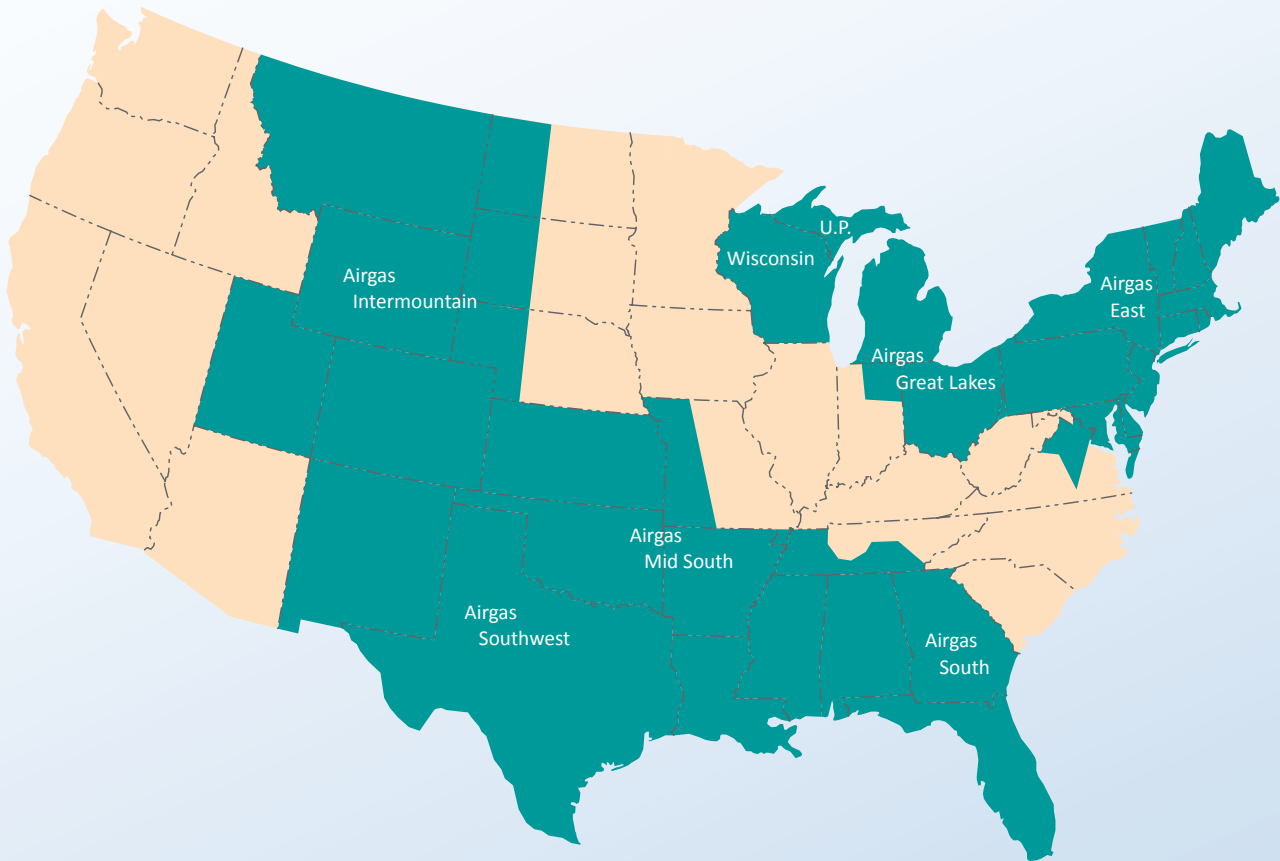

We can qualify and provide complete process and product training for your equipment operators.

Areas We Service...

Airgas

We offer service throughout Airgas Intermountain, Southwest, Mid South, South, East and Great Lakes regions, as well as the state of Wisconsin and Michigan's Upper Peninsula

For cutting precision, performance and productivity, our technicians will recommend the best plasma or oxy-fuel cutting system for your applications and operations. We'll install your system and show you how to use it for the best quality, productivity and profitability results. We'll handle all necessary maintenance and servicing. And we'll provide all the necessary repair and consumable parts to keep your processes and profits flowing.
